EDUCATION

UIET Chandigarh Panjab University   Chandigarh,India
B.E. Computer Science   August 2022 - Present
CGPA: 8.7

EXPERIENCE

| Summer Training   Chandigarh, India | June 2023 - jul-2023
- This training experience at UIET Chandigarh enabled me to acquire a strong skill set in web development and provided valuable exposure to industry-relevant technologies.
- I am enthusiastic about leveraging these acquired skills to contribute effectively to web development projects and to continue exploring the dynamic landscape of web development.

PROJECTS / OPEN-SOURCE

Shopping Cart | Link   *React js,React Context API, Node.js, Express.js, MongoDB, JWT Tokens ,Multer*
- Built an full stack E-commerce web application employing Express.js for the server, MongoDB for data storage, and React for the client-side interface .
- The backend functionalities include product management through RESTful APIs , user authentication with JWT tokens, and dynamic file uploads facilitated by Multer.
- The system supports user signup and login, while an admin panel enables the addition and removal of products

Top Courses Explorer | Link   *React JS , Tailwind CSS , Javascript , Html*
- Developed a online learning platform using React, integrating with a RESTful API,Utilized React's useState and useEffect hooks.
- Implemented a category filter functionality allowing users to easily navigate and explore courses based on categories like Development, Business, Design, and Lifestyle.
